### **PVC face shield with cap**

Due to its size and function, it covers the whole face, by using it we can prevent to touch our face involuntarily.

It protects the whole face against harmful external influences.

The shield is transparent, its use is not disturbing.

It protects the hair, the hairy scalp, and the eye area.

Full face protection

The cap available for the shield provides adequate attachment.

Complete the protection provided by the shield with a face mask for added security.

Thanks to the shield, you can do your job more safely and you can be more secure in everyday life.
